The Herald News

REALITY. DELIVERED ~~DAILY~~. NOW!

I guess September is Bob Almond month at the [Herald News](#) based in Fall River, MA. First I was mentioned in a sentence in an article on the YEAH Program I participated in last winter. From that interview the reporter Deborah Allard decided to interview me since I was the next city away. I was excited because after 20+ years in the business of comic book inking I'd never been interviewed at home before, only via emails, phone calls, or live at conventions. The main article was posted yesterday online, as well as a related article showing some photos she took of me in my room with commission pieces in the works. Some facts are incorrect but that's par for the course for such interviews where there's no time to have the subject proofread the draft like in other formats. Deb's sending me a physical copy of the paper and I appreciate your kindness, courtesy and consideration. (Below, me in my studi inking a recent Scott McDaniel commission--all photos by Deborah Allard).
